### Safety Precautions

- 1. This design of this product contains special hardware and many circuits and components specially for safety purposes. For continued protection, no changes should be made to the original design unless authorized in writing by the manufacturer. Replacement parts must be identical to those used in the original circuits. Services should be performed by qualified personnel only.
- 2. Alterations of the design or circuitry of the product should not be made. Any design alterations of the product should not be made. Any design alterations or additions will void the manufacturer's warranty and will further relieve the manufacture of responsibility for personal injury or property damage resulting therefrom.
- 3. Many electrical and mechanical parts in the products have special safety-related characteristics. These characteristics are often not evident from visual inspection nor can the protection afforded by them necessarily be obtained by using replacement components rated for higher voltage, wattage, etc. Replacement parts which have these special safety characteristics are identified in the Parts List of Service Manual. Electrical components having such features are identified by shading on the schematics and by (A) on the Parts List in the Service Manual. The use of a substitute replacement which does not have the same safety characteristics as the recommended replacement parts shown in the Parts List of Service Manual may create shock, fire, or other hazards.
- 4. The leads in the products are routed and dressed with ties, clamps, tubings, barriers and the like to be separated from live parts, high temperature parts, moving parts and/or sharp edges for the prevention of electric shock and fire hazard. When service is required, the original lead routing and dress should be observed, and it should be confirmed that they have been returned to normal, after re-assembling.
- 5. Leakage current check (Electrical shock hazard testing)
  After re-assembling the product, always perform an isolation check on the exposed metal parts of the product (antenna terminals, knobs, metal cabinet, screw heads, headphone jack, control shafts, etc.) to be sure the product is safe to operate without danger of electrical shock.

  Do not use a line isolation transformer during this check.
  - ◆ Plug the AC line cord directly into the AC outlet. Using a "Leakage Current Tester", measure the leakage current from each exposed metal parts of the cabinet, particularly any exposed metal part having a return path to the chassis, to a known good earth ground. Any leakage current must not exceed 0.5mA AC (r.m.s.)
  - Alternate check method

Plug the AC line cord directly into the AC outlet. Use an AC voltmeter having, 1,000 ohms per volt or more sensitivity in the following manner. Connect a  $1,500\Omega$  10W resistor paralleled by

a  $0.15\mu$  F AC-type capacitor between an exposed metal part and a known good earth ground.

Move the resistor connection to each exposed metal part, particularly any exposed metal part having a return path to the chassis, and measure the AC voltage across the resistor. Now reverse the plug in the AC outlet and repeat each measurement voltage measured any must not exceed 0.75 V AC (r.m.s.). This corresponds to 0.5 mA AC (r.m.s.).

### Warning

- 1. This equipment has been designed and manufactured to meet international safety standards.
- 2. It is the legal responsibility of the repairer to ensure that these safety standards are maintained.
- 3. Repairs must be made in accordance with the relevant safety standards.
- 4. It is essential that safety critical components are replaced by approved parts.
- 5. If mains voltage selector is provided, check setting for local voltage.

<u>AUTION</u> Burrs formed during molding may be left over on some parts of the chassis. Therefore, pay attention to such burrs in the case of preforming repair of this system.

## -**Safety Precautions** (U.K only) —

- 1. This design of this product contains special hardware and many circuits and components specially for safety purposes. For continued protection, no changes should be made to the original design unless authorized in writing by the manufacturer. Replacement parts must be identical to those used in the original circuits.
- 2. Any unauthorised design alterations or additions will void the manufacturer's guarantee; furthermore the manufacturer cannot accept responsibility for personal injury or property damage resulting therefrom.
- 3. Essential safety critical components are identified by ( \(\hat{L}\)\) on the Parts List and by shading on the schematics, and must never be replaced by parts other than those listed in the manual. Please note however that many electrical and mechanical parts in the product have special safety related characteristics. These characteristics are often not evident from visual inspection. Parts other than specified by the manufacturer may not have the same safety characteristics as the recommended replacement parts shown in the Parts List of the Service Manual and may create shock, fire, or other hazards.
- 4. The leads in the products are routed and dressed with ties, clamps, tubings, barriers and the like to be separated from live parts, high temperature parts, moving parts and/or sharp edges for the prevention of electric shock and fire hazard. When service is required, the original lead routing and dress should be observed, and it should be confirmed that they have been returned to normal, after re-assembling.

### Warning .

- 1. Service should be performed by qualified personnel only.
- 2. This equipment has been designed and manufactured to meet international safety standards.
- 3. It is the legal responsibility of the repairer to ensure that these safety standards are maintained.
- 4. Repairs must be made in accordance with the relevant safety standards.
- 5. It is essential that safety critical components are replaced by approved parts.
- 6. If mains voltage selector is provided, check setting for local voltage.

<u>AUTION</u> Burrs formed during molding may be left over on some parts of the chassis. Therefore, pay attention to such burrs in the case of preforming repair of this system.

## IMPORTANT FOR LASER PRODUCTS PRECAUTIONS ( For U S A only )

- 1. CLASS 1 LASER PRODUCT
- DANGER: Invisible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
- CAUTION: Do not open the rear cover. There
  are no user serviceable parts inside the unit; leave
  all servicing to qualified service personnel.
- 4. CAUTION: The compact disc player uses invisible laser radiation and is equipped with safety switches which prevent the emission of radiation when the CD holder is open. It is dangerous to defeat the safety switches.
- CAUTION: Use of controls for adjustments and the performance of procedures other than those specified herein may result in exposure to hazardous radiation.
- 6. CAUTION: The laser is able to function, if safety switches out of function. The laser light is invisible, avoid exposure, do not disassemble the laser unit, but replace the complete unit.

## IMPORTANT FOR LASER PRODUCTS PRECAUTIONS ( For E only )

- 1. CLASS 1 LASER PRODUCT

## Instructions for RC-QN1

Thank you for purchasing the JVC CD Portable System.

We hope it will be a valued addition to your home as well as to your outdoor life, giving you years of enjoyment.

Be sure to read this instruction manual carefully before operating your new stereo system.

In it you will find all the information you need to set up and use the system.

If you have a query that is not answered by the manual, please contact your dealer.

#### Here are some of the things that make your System both powerful and simple to use.

- The controls and operations have been redesigned to make them very easy to use, freeing you to just enjoy the music.
  - With JVC's COMPU PLAY you can turn on the System and automatically start the Radio, CD Player, or Cassette Deck with a single touch. (When power is supplied from AC)

- Sound effects; BEAT, POP, and CLEAR.
- A 30-station preset capability (15 FM and 15 AM) in addition to auto-seek and manual tuning.
- A user-friendly timer lets you fall asleep to music.

#### now This Manual Is Organized

- Basic information that is the same for many different functions e.g. setting the volume is given in the section 'Common Operations', and not repeated under each function.
- The names of buttons/controls are written in all capital letters: e.g. TUNER BAND.
- · System functions are written with an initial capital letter only: e.g. Normal Play.

Use the table of contents to look up specific information you require.

We've enjoyed making this manual for you, and hope it serves you in enjoying the many features built into your System.

#### THE PERSONNEL AUTHORS

#### When carrying the Unit

· Do not raise or lower the carrying handle of the Unit with the telescopic antenna extended in order to avoid damaging the antenna.

#### Where to place the Unit

- Select a place which is level, dry and neither too hot nor too cold (between 5°C/41°F and 35°C/95°F).
- · Leave sufficient distance between the Unit and a TV.
- Do not use the Unit in a place subject to vibrations.

#### Power cord

- Do not handle the power cord with wet hands!
- Some power (2.6 W) is always consumed as long as the power cord is connected to the wall outlet.
- When unplugging the Unit from the wall outlet, always pull the plug, not the power cord.

#### Malfunctions, etc.

- There are no user serviceable parts inside. In case of system failure, unplug the power cord and consult your dealer.
- Do not insert any metallic object into the System.

## **Common Operations**

## Turning the Unit On Press the Wibutton.

The POWER ON indicator (green) lights up and the display comes on.

The Unit comes on ready to continue in the mode it was in when the power was last turned off.

- For example, if the last thing you were doing was listening to a CD, you are now ready to listen to a CD again. If you wish, you can change to another source.
- If you were listening to the Tuner last, the Tuner comes on playing the station it was last set to.

Note: When power is supplied from the batteries, the 0/1 button on the Remote Control does not work.

### Turning the Unit Standby

Press the **Ulbutton** again.

When operating on AC power:

The STANDBY indicator lights up and the display is blank.

- When in Standby mode, the Unit continues to a small amount of power (2.6 W) to run the display.
- To switch off the Unit completely, unplug the AC power cord from the AC outlet.

#### When power is supplied from the batteries:

When the Unit is turned off with the 0/1 button on the Unit (the 0/1 button on the Remote Control is ineffective), the Standby indicator goes out and the display is blank.

To switch off the Unit completely, remove the batteries from the Unit

### adjustingshewoidh

Turn the VOLUME control on the Unit to the right or left to increase or decrease the volume level.

CAUTION: DO NOT turn on the Unit and/or start playing any source without first setting the VOL-UME control to 0, as a sudden blast of sound can damage your hearing, speakers and/or head-phones.

#### For private listening

Connect a pair of headphones to the PHONES jack. No sound comes out of the speakers.

Be sure to turn down the volume before connecting or putting on headphones.

### Sound Effects (SOUND)

The System has the following preset sound effects that give you control over the way your music sounds, so you can tailor it to the acoustics of your room and the quality of your source. Test the sound effects out to hear how each affects the music. Note that the effects work only during playback.

#### Sound effects

FLAT: No sound effect.

BEAT: Boosts low and high frequencies.

POP: Good for vocal music.

CLEAR: For a wide, dynamic stereo sound.

To get an effect, press the SOUND button repeatedly until the Sound mode you want appears on the display.

Each time you press the SOUND button, the display changes as shown below:

To cancel the effect, press the SOUND button until "FLAT" appears on the display

## **Using the Tuner**

You can listen to FM and AM stations. Stations can be tuned in manually, automatically, or from preset memory storage.

#### One Touch Radio (AC power only)-

Just press the TUNER BAND button to turn on the Unit and start playing the station you were last tuned to.

You can also switch from any other sound source to the radio by pressing the TUNER BAND button.

### \* kmi nambarakayen

#### Press the TUNER BAND button.

The Band and Frequency you were last tuned to appear on the display.

Each time you press the button, the band changes as follows:

## Select a station using one of the following methods.

#### Manual Tuning

Press the ⊷ button repeatedly to move from frequency to frequency until you find the station you want.

#### Auto Tuning

If you press and hold the  $\bowtie \multimap$  button for one second or more, the frequency changes down, or up, automatically until a station is found.

OR

#### Preset Tuning using the Unit (Possible only after presetting stations)

Press the PRESET button to select the preset station.

After you have selected the preset number, the band and the frequency are displayed.

Example: Press the PRESET button until the preset number 12 "P- 12" appears.

#### Preset Tuning using the Remote Control (Possible only after presetting stations)

Select the station by entering its preset number on the number keys.

(Display when using the Tuner)

- Example: For channel 5, press 5. For channel 15, press +10 then 5.
- · The band and the frequency are displayed.

#### Turn the antenna for best reception.

- For FM broadcast, extend and turn the telescopic antenna.
- · For AM broadcast, turn the Unit itself.

#### Presetting Stations

You can preset up to 15 FM stations and up to 15 AM stations into memory using the Remote Control.

#### Auto Presetting (Using the Unit)

In each band, you can automatically preset FM-15, AM-15 stations. Preset numbers will be allocated as stations are found, starting from the station currently tuned to and moving up the frequency.

- Select a band (AM or FM) by pressing the TUNER BAND button.
- Press the PRESET button for more than two seconds.
- Repeat steps 1-2 for the other band.
- If you want to change any of the auto preset stations, follow the procedure for Manual Presetting.

CAUTION: If the Unit is unplugged or if a power failure occurs, the preset stations will be erased after approx. five minutes. If this happens, you will need to preset the stations again.

## Manual Presetting (Using the Remote Control)

- Select a band by pressing the TUNER BAND button.
- Press the i⊲⊲ or >>i button to tune in a station.
- Set the preset number by pressing and holding the number key on the Remote Control.

- To preset numbers 1 to 10: Press the number key and hold down for 2 seconds.
- To preset numbers 11 to 15: Press and release the +10 button, then press the second number key (1 to 5) and hold down for 2 seconds.

When the preset display blinks, the setting is stored and you can release the number key. The display returns to the normal band and frequency display.

Example: Preset number = 12

1 2 → FM 1035

#### Repeat steps 1 - 3 for each station.

To change the preset stations, repeat the same steps as above.

# To Change the F

The "STEREO" indicator lights up and you can hear stereo effects, when a program is broadcast in stereo.

However if an FM stereo broadcast is hard to receive or noisy, you can select Monaural mode. Reception improves, but you lose any

#### Press the TUNER BAND button to select FM MONO mode.

The "MONO" indicator lights up on the display.

To restore the stereo effect, press the TUNER BAND button to select FM Auto mode. The "MONO" indicator goes out.

## Using the CD Player

You can use Normal or Repeat Play. Repeat Play can be set to repeat all or just one of the tracks on the CD.

### One Touch CD Player (AC power only)

- Just press the CD ▶/₩ button.
  - The power is automatically turned on. If a CD is already inserted, "PLAY" is displayed and the CD will start playing from the first track.
  - If no CD is inserted, "NO DISC" is displayed on the display and the CD Player remains in Stop mode.

To pause, press the CD >/III.

Total number of tracks

To cancel pause, press the CD ▶/III again. Play continues from the point where it was paused.

#### Notes:

You can place an 8 cm (3") CD without an adaptor.

The following information for the CD is displayed.

- If the CD cannot be read correctly (because it is scratched, for example), "000000" appears on the display.
- Even if other function is selected during playing the CD, the last track is memorized.

#### Skip Play ( or >> ) -

During playback, press the i◄◄ or ▶▶ button to select the track you want.

The selected track starts playing.

- Press and release the button to go forward one track at a
- Press and release the Had button to go back one track at a time.

#### **Search Play**

#### During playback, hold down the l≪≪ or bbl button.

This operation will fast forward/backwards the CD so you can quickly find a particular passage in the track you are listening to (the CD is played slowly for a moment and then the playback speed in-

### Mormal Blayer

### Press the CD OPEN button on the Unit.

- The CD holder opens.
- Place a CD, with its label side up.
- Gently close the CD holder by hand.

Press the CD ►/II button. The first track of the CD begins playing.

The CD Player automatically stops when the last track of the CD has finished playing.

During playback, the track number being played and the playback time elapsed are shown on the display.

To stop playing the CD, press the button.

#### Locating a Track directly with the Remote Control

Using the number keys on the Remote Control allows you can go directly to the beginning of any track.

During playback, enter the number of the track you want to listen to using the number keys.

The selected track starts playing.

Example: For track 5, press 5. For track 15, press +10 then 5.
 For track 20, press +10, then 10. For track 32, press +10 three times, then 2.

You can repeat one track or all the tracks on a CD.

During, or before playback, press the REPEAT button on the Remote Control to select the Repeat mode.

The Repeat indicator changes with each press of the button, as shown below.

: Repeats one track.

ALL: Repeats all the tracks.

To exit Repeat mode, press the REPEAT button until the Repeat indicator on the display goes out.

## Using the Cassette Deck (Listening to a Tape)

TAPE

(Display when using the Cassette Deck)

The Cassette Deck allows you to play and record audio tapes **Notes**:

- The Cassette Deck performs best with normal tapes (metal or CrO2 tapes are not recommended).
- The use of tapes longer than 120 minutes is not recommended, since characteristic deterioration may occur and these tapes easily jam in the pinch-roller and the capstan.

#### One Touch Play (AC power only) -

Just press the TAPE PLAY button on the Unit. The power is automatically turned on, "TAPE" is displayed, and if a tape is already in the deck, it will start to play.

# To Fasti Forward and Rewind Lage

Press the ◄< (fast-forward) button on the Unit to fast-forward the tape.

Press the ►► (rewind) button on the Unit to rewind the tape.

The Cassette Deck automatically stops when the tape reaches its end.

- Press the ■/≙ STOP/EJECT button to open the cassette holder.
- Insert a cassette tape with the exposed side facing upward as shown below.
  - Forward direction

- Close the holder gently until it clicks.
- Press the TAPE PLAY button.
- The tape is played and then stops when it reaches the end.

To pause, press the PAUSE button on the Unit.

To cancel pause, press the PAUSE button again. Play continues from the point where it was paused.

To stop playing, press the ■/ STOP/EJECT button.

To remove the tape, stop the tape, and press the **■**/**△** STOP/ EJECT button again.

## Using the Cassette Deck (Recording)

## Things To Know Before You Start Recording

- It may be unlawful to record or playback copyrighted material without the consent of the copyright owner.
- The correct recording level is automatically set by the ALC (Automatic Level Control) function, and is not affected by the VOLUME control on the Unit or by the use of sound effects.
- Two small tabs on the back of the cassette tape, one for side A and one for side B, can be removed to prevent accidental erasure or recording.
- To record on a cassette with the tabs removed, you must cover the holes with adhesive tape as shown.

#### Notes:

- Use normal tapes (not metal or CrO2 tapes) for recording.
- At the start and end of cassette tapes, there is leader tape which cannot be recorded onto.
- If a recorded tape you make has excessive noise or static, the
  Unit may have been too close to a TV during the recording.
  Either turn off the TV or increase the distance between the TV
  and the Unit.

### Recording from the Radio

- Press the ■/≜ STOP/EJECT button to open the cassette holder.
- Insert a blank or erasable cassette tape with the exposed side facing upward as shown below and wind past the leader tape.

  ← Forward direction

- Close the holder gently until it clicks.
- Tune in to a radio station.
- Press the 9 REC button on the Unit.

The PLAY button is pressed at the same time, the "REC" indicator lights up, and the Unit begins recording.

The tape is recorded and then stops when it reaches the end.

To pause the recording, press the PAUSE button on the Unit. To cancel pause, press the PAUSE button again. Recording continues from the point where it was paused.

To stop recording, press the ■/▲ STOP/EJECT button.

To remove the tape, stop the tape, and press the ■/▲ STOP/
EJECT button again to open the cassette holder.

#### Recording an AM station (BEAT CUT)

When recording an AM broadcast, beats may be produced which are not heard when listening to the broadcast. If this happens, you can use the BEAT CUT function.

#### Switch the BEAT CUT switch on the back of the Unit from the NORM-1 to 2 or 3.

Note: In regular use, the BEAT CUT switch should be set to the NORM-1 position.

### Recording from the CD

The CD Player can be started with the Cassette Deck for synchronous recording and everything on the CD recorded onto the tape in the order it is on the CD.

- Insert a cassette tape in the Cassette Deck and wind past the leader tape.
- Load a CD.
- Press the CD ►/ii button.
- Press the **button** to stop the CD.
- You can check the number of tracks and the total playback time of the CD on the display. (See page 6.)
- Select the Repeat mode of the CD if desired.

To select the Repeat mode ( or ALL), press the RE-PEAT button on the Remote Control.

Choose whether to have approx. four seconds of blank tape between tracks.

If you want the blank section, skip this step.

If you do not want the blank section, perform the following operation on the CD Player.

Press the CD ►/II button twice.

#### Press the • REC button on the Unit.

The PLAY button is pressed at the same time, the "REC" indicator lights up, and the synchronous recording begins.

- The tape is recorded and then stops when it reaches the end.
- To continue recording to the other side of the tape, perform the following steps.

- 1. Reverse the cassette tape and wind past the leader tape.
- Press the CD ►/H button and then press the REC button.
   Then, the synchronous recording begins from the beginning of the last track that was stopped at the end of the first side of the tape.

To stop recording, press the ■/♠ STOP/EJECT button.

To remove the tape, stop the tape, and press the ■/♠ STOP/EJECT button again to open the cassette holder.

#### Notes:

- If the CD reaches its end before the tape, the tape will continue
  to run until stopped. Press #/A STOP/EJECT button to stop
  the tape.
- During synchronous recording, the CD ►/II, I<, and ►►I buttons for the CD Player do not function.</li>
- If you press the 

  REC button during play the CD, recording
  will start from the beginning of the track being played.

## **Using the Sleep Timer**

Use the Sleep Timer to turn the Unit off after a certain number of minutes when it is playing. By setting the Sleep Timer, you can fall asleep to music and know that your Unit will turn off by itself rather than play all night.

- You can only set the Sleep Timer when the Unit is on and a source is playing.
- Play back a CD, tune in to a desired station, or play back a tape.
- Press the SLEEP button on the Remote Control.

The "SLEEP" indicator lights up.

Set the length of time you want the source to play before shutting off.

- Each time you press the SLEEP button, it changes the number of minutes shown on the display in this sequence:
- → 30 → 60 → 90 → 120 → Cancelled → (back to the beginning)

The display will stop blinking after 5 seconds and return to the display before you set the Sleep Timer.

The Unit is now set to turn off after the number of minutes you have

#### To Confirm the Sleep Time

When the SLEEP button is pressed, the remaining sleep time is displayed. After 5 seconds the original display returns.

#### To Cancel the SLEEP Timer Setting

Press the SLEEP button until the "SLEEP" indicator goes off on the display.

Turning off the Unit also cancels the SLEEP Timer.

## **Using the Microphones**

#### Microphone Mixing

Using a microphone (not supplied), you can mix the microphone sound with a source sound.

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Start a source; CD, tape, or tuner.
- Adjust the volume level, as you sing into the microphone.

### Playing the Microphone Sound Annough dire Speakers

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Adjust the volume level, as you sing into the microphone.

Note: If "howling" occurs, keep the microphone away from the

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Adjust the volume level, as you sing into the microphone.
- To record, follow the steps in "Recording from the Radio" or "Recording from the CD" according to the source you want to mix. (See pages 8 and 9.)

Note: If "howling" occurs, keep the microphone away from the

### Redución aville a acoró Area las es

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Adjust the volume level, as you sing into the microphone.
- To record, refer to "Recording from Radio" except for tuning in to a radio station. (See page 8.)

Note: If "howling" occurs, keep the microphone away from the Unit.

## **Care And Maintenance**

Handle your CDs carefully, and they will last a long time.

#### **Compact Discs**

 Only CDs bearing this mark can be used with this Unit.

 Continued use of irregularly shaped CDs (heart-shape, octagonal, etc.) can damage the

- Remove the CD from its case by holding it at the edges while pressing the case's center hole lightly.
- Do not touch the shiny surface of the CD, or bend the CD.

- Put the CD back in its case after use to prevent warping.
- Be careful not to scratch the surface of the CD when placing it back in the case.
- Avoid exposure to direct sunlight, temperature extremes, and moisture.

A dirty CD may not play correctly. If a CD is dirty, wipe it with a soft cloth in a straight line from center to edge.

CAUTION: Do not use any solvent (for example, conventional record cleaner, spray thinner, benzine, etc.) to clean a CD.

#### **Moisture Condensation**

Moisture may condense on the lens inside the Unit in the following cases:

- After turning on heating in the room.
- · In a damp room.
- If the Unit is brought directly from a cold to a warm place.

Should this occur, the Unit may malfunction. If this happens, leave it turned on for a few hours until the moisture evaporates, unplug the AC power cord, and then plug it in again.

#### **General Notes**

To ensure top performance, keep your CDs and the mechanism clean.

- Store CDs in their cases, and keep them in cabinets or on shelves.
- · Keep the CD holder closed when not in use.

#### Cassette Tapes

If a tape is loose, it may get stretched, cut, or caught in the cassette. Take up the slack by inserting a pencil in one of the reels and rotating in the right direction.

Do not touch the tape surface.

- Do not store the tape:
  - In dusty places
- In direct sunlight or heat
- In damp areas
- On a TV or speaker
- Near a magnet

#### **Cassette Deck**

- If the heads, capstan, or pinch-roller in the Cassette Deck become dirty, you may experience:
  - Loss of sound quality
  - Discontinuous sound
  - Fading
  - Incomplete erasure
  - Difficulty recording
- Clean the heads, capstans, and pinch-rollers using a cotton swab moistened with alcohol.

- If the heads become magnetized, the Unit will produce noise or lose high frequency notes.
- To demagnetize the heads, turn off the Unit, and use a head demagnetizer (available at electronics and record shops).

## **Troubleshooting**

- If you have a problem with your System, check this list for a possible solution before calling for service.
- If you cannot solve the problem from the hints given here, or the System has been physically damaged, call a qualified person, such as your
  dealer, for service.

| Symptom                               | Possible Cause                                                                                                                                    | Action                                                                                                                                      |  |

## RC-QN2/QN3

Thank you for purchasing the JVC CD Portable System.

We hope it will be a valued addition to your home as well as to your outdoor life, giving you years of enjoyment.

Be sure to read this instruction manual carefully before operating your new stereo system.

In it you will find all the information you need to set up and use the system.

If you have a query that is not answered by the manual, please contact your dealer.

Here are some of the things that make your System both powerful and simple to use.

- The controls and operations have been redesigned to make them very easy to use, freeing you to just enjoy the music.
  - With JVC's COMPU PLAY you can turn on the System and automatically start the Radio, CD Player, or Cassette Deck with a single touch. (When power is supplied from AC)

- Sound effects; BEAT, POP, and CLEAR.
- The System incorporates AHB (Active Hyper Bass) PRO circuitry to faithfully reproduce low frequency sounds.
- A 30-station preset capability (15 FM and 15 AM) in addition to auto-seek and manual tuning.
- Auto-reverse tape function (RC-QN3 only).
- A user-friendly timer lets you wake or fall asleep to music.

### Basic information that is the same for many different functions - e.g. setting the volume - is given in the section 'Common Operations', and not repeated under each function.

- The names of buttons/controls are written in all capital letters: e.g. TUNER BAND.
- · System functions are written with an initial capital letter only: e.g. Normal Play.

Use the table of contents to look up specific information you require.

We've enjoyed making this manual for you, and hope it serves you in enjoying the many features built into your System.

#### When carrying the Unit

· Do not raise or lower the carrying handle of the Unit with the telescopic antenna extended in order to avoid damaging the antenna.

#### Where to place the Unit

- Select a place which is level, dry and neither too hot nor too cold (between 5°C/41°F and 35°C/95°F).
- · Leave sufficient distance between the Unit and a TV.
- Do not use the Unit in a place subject to vibrations.

#### Power cord

- · Do not handle the power cord with wet hands!
- Some power (2.8 W) is always consumed as long as the power cord is connected to the wall outlet.
- · When unplugging the Unit from the wall outlet, always pull the plug, not the power cord.

#### Malfunctions, etc.

- There are no user serviceable parts inside. In case of system failure, unplug the power cord and consult your dealer.
- Do not insert any metallic object into the System.

## **Common Operations**

# Turning the Power On and Standby

## Turning the Unit On Press the 🖖 button.

The POWER ON indicator (green) lights up and the display comes on

The Unit comes on ready to continue in the mode it was in when the power was last turned off.

- For example, if the last thing you were doing was listening to a CD, you are now ready to listen to a CD again. If you wish, you can change to another source.
- If you were listening to the Tuner last, the Tuner comes on playing the station it was last set to.

Note: When power is supplied from the batteries, the 0/1 button on the Remote Control does not work.

#### **Turning the Unit Standby**

Press the U/I button again.

When operating on AC power:

The STANDBY indicator lights up and the display is blank, except for the clock display.

- When in Standby mode, the Unit continues to a small amount of power (2.8 W) to run the display.
- To switch off the Unit completely, unplug the AC power cord from the AC outlet.

#### When power is supplied from the batteries:

When the Unit is turned off with the  $\Theta/I$  button on the Unit (the  $\Theta/I$  button on the Remote Control is ineffective), the Standby indicator goes out and the display is blank, except for the clock display. Further, the backlight for the display goes out.

To switch off the Unit completely, remove the batteries from the Unit.

### Adjusting the Volume

You can adjust the volume level between 0 and 25 when the Unit is turned on

Turn the VOLUME control on the Unit to the right or left to increase or decrease the volume level.

OR

Press the VOLUME + or – button on the Remote Control to increase or decrease the volume level:

CAUTION: DO NOT turn on the Unit and/or start playing any source without first setting the VOLUME control to 0, as a sudden blast of sound can damage your hearing, speakers and/or headphones.

#### For private listening

Connect a pair of headphones to the PHONES jack. No sound comes out of the speakers.

Be sure to turn down the volume before connecting or putting on headphones.

You can reinforce the bass sound to maintain rich, full bass at low volume (you can use this effect only for playback):

To get the effect, press the AHB (Active Hyper Bass) PRO button.

The "AHB PRO" indicator lights up on the display.

To cancel the effect, press the button again.

The "AHB PRO" indicator goes out.

### Sound Effects (SOUND)

The System has the following preset sound effects that give you control over the way your music sounds, so you can tailor it to the acoustics of your room and the quality of your source. Test the sound effects out to hear how each affects the music. Note that the effects work only during playback.

#### Sound effects

FLAT: No sound effect.

BEAT: Boosts low and high frequencies.

POP: Good for vocal music.

CLEAR: For a wide, dynamic stereo sound.

To get an effect, press the SOUND button repeatedly-until the Sound mode you want appears on the display.

Each time you press the SOUND button, the display changes as shown below:

To cancel the effect, press the SOUND button until "FLAT" appears on the display.

### Showing the Time (Display)

In standby mode, both a digital and an analog are displayed. In Standby mode, both clocks are displayed on the display.

When the Unit is turned on, the analog clock only is displayed.

To display both clocks while the Unit is turned on, press. the CLOCK/TIMER button on the Unit.

To return to the original display, press the CLOCK/TIMER button on the Unit once again.

**Note:** You need to set the clock first in order for it to work. (See "Setting the Clock" on page 10.)

## **Using the Tuner**

You can listen to FM and AM stations. Stations can be tuned in manually, automatically, or from preset memory storage.

#### One Touch Radio (AC power only)-

Just press the TUNER BAND button to turn on the Unit and start playing the station you were last tuned to.

You can also switch from any other sound source to the radio by pressing the TUNER BAND button.

### Tuning In a Station

#### Press the TUNER BAND button.

The Band and Frequency you were last tuned to appear on the display.

Each time you press the button, the band changes as follows:

## Select a station using one of the following methods.

#### Manual Tuning

Press the ► button repeatedly to move from frequency to frequency until you find the station you want.

Band display, Frequency display, Preset channel

(Display when using the Tuner)

#### Auto Tuning

If you press and hold the \*\*or >>> button for one second or more, the frequency changes down, or up, automatically until a station is found.

#### ЭR

#### Preset Tuning using the Unit (Possible only after presetting stations)

Press the PRESET button to select the preset station.

After you have selected the preset number, the band and the frequency are displayed.

• Example:Press the ■ PRESET button until the preset number 12 "P- 12" appears.

P- | 2 → FM 1035

#### OR

### Preset Tuning using the Remote Control (Possible only after presetting stations)

Select the station by entering its preset number on the number keys.

- Example: For channel 5, press 5. For channel 15, press +10 then 5.
- The band and the frequency are displayed.

#### Turn the antenna for best reception.

For FM broadcast, extend and turn the telescopic antenna.

#### RC-QN1/QN2/QN3

For AM broadcast, turn the Unit itself.

### **Presetting Stations**

You can preset up to 15 FM stations and up to 15 AM stations into memory using the Remote Control.

### Auto Presetting (Using the Unit) —

In each band, you can automatically preset FM-15, AM-15 stations. Preset numbers will be allocated as stations are found, starting from the station currently tuned to and moving up the frequency.

- Select a band (AM or FM) by pressing the TUNER BAND button.
- Press the PRESET button for more than two seconds.
- 3. Repeat steps 1-2 for the other band.
- If you want to change any of the auto preset stations, follow the procedure for Manual Presetting.

CAUTION: If the Unit is unplugged or if a power failure occurs, the preset stations will be erased after approx. five minutes. If this happens, you will need to preset the stations again.

## Manual Presetting (Using the Remote Control)

- Select a band by pressing the TUNER BAND button.
- 2 Press the ◄◄ or ▶> button to tune in a station.
- Set the preset number by pressing and holding the number key on the Remote Control.
  - To preset numbers 1 to 10: Press the number key and hold down for 2 seconds.
  - To preset numbers 11 to 15: Press and release the +10 button, then press the second number key (1 to 5) and hold down for 2 seconds.

When the preset display blinks, the setting is stored and you can release the number key. The display returns to the normal band and frequency display.

Example: Preset number = 12

P- | 2 → FM 1835

### 4. Repeat steps 1 - 3 for each station.

To change the preset stations, repeat the same steps as above.

## To Change the FM Reception Mode

The "STEREO" indicator lights up and you can hear stereo effects, when a program is broadcast in stereo:

However if an FM stereo broadcast is hard to receive or noisy, you can select Monaural mode. Reception improves, but you lose any stereo effect

## Press the TUNER BAND button to select FM MONO mode.

The "MONO" indicator lights up on the display.

**To restore the stereo effect,** press the TUNER BAND button to select FM Auto mode. The "MONO" indicator goes out.

## **Using the CD Player**

You can use Normal or Repeat Play. Repeat Play can be set to repeat all or just one of the tracks on the CD.

## One Touch CD Player (AC power only) ——

Just press the CD ▶/II button.

 The power is automatically turned on. If a CD is already inserted, "PLAY" is displayed and the CD will start playing from the first track.  If no CD is inserted, "NO DISC" is displayed on the display and the CD Player remains in Stop mode.

#### Normal Play

- Press the CD OPEN button on the Unit. The CD holder opens.
- Place a CD, with its label side up.

6

#### Gently close the CD holder by hand.

#### Press the CD ►/II button.

The first track of the CD begins playing.

The CD Player automatically stops when the last track of the CD has finished playing.

 During playback, the track number being played and the playback time elapsed are shown on the display.

#### To stop playing the CD, press the button.

The following information for the CD is displayed.

Total number of tracks

Playback time elapsed

To pause, press the CD ▶/II.

To cancel pause, press the CD ►/II again. Play continues from the point where it was paused.

#### Notes:

- You can place an 8 cm (3") CD without an adaptor.
- If the CD cannot be read correctly (because it is scratched, for example), "000000" appears on the display.
- Even if other function is selected during playing the CD, the last track is memorized.

#### Skip Play (Idd or ▶►)-

During playback, press the i◄◄ or ▶ы button to select the track you want.

The selected track starts playing.

- Press and release the button to go forward one track at a time.
- Press and release the button to go back one track at a time.

#### Search Play

#### During playback, hold down the +◄◄ or ▶► button.

This operation will fast forward/backwards the CD so you can quickly find a particular passage in the track you are listening to (the CD is played slowly for a moment and then the playback speed increases).

## Locating a Track directly with the Remote Control

Using the number keys on the Remote Control allows you can go directly to the beginning of any track.

During playback, enter the number of the track you want to listen to using the number keys.

The selected track starts playing.

Example: For track 5, press 5. For track 15, press +10 then 5.
 For track 20, press +10, then 10. For track 32, press +10 three times, then 2.

### Repeat Play

You can repeat one track or all the tracks on a CD.

## During, or before playback, press the REPEAT button on the Remote Control to select the Repeat mode.

The Repeat indicator changes with each press of the button, as shown below.

 $\subset$   $\rightarrow$   $\subset$  ALL  $\rightarrow$  blank display  $\rightarrow$  (back to the beginning).

: Repeats one track.

**ALL**: Repeats all the tracks.

To exit Repeat mode, press the REPEAT button until the Repeat indicator on the display goes out.

## Using the Cassette Deck (Listening to a Tape)

The Cassette Deck allows you to play and record audio tapes **Notes:** 

- The Cassette Deck performs best with normal tapes (metal or CrO2 tapes are not recommended).
- The use of tapes longer than 120 minutes is not recommended, since characteristic deterioration may occur and these tapes easily jam in the pinch-roller and the capstan.

#### One Touch Play (AC power only) —

Just press the TAPE PLAY button on the Unit. The power is automatically turned on, "TAPE" is displayed, and if a tape is already in the deck, it will start to play.

(Display when using the Cassette Deck)

#### Playton

The Cassette Deck for RC-QN3 has an auto-reverse function allowing you to continuously play both sides of a tape. The Cassette Deck on model RC-QN2 plays in one direction only.

- Press the m/≜ STOP/EJECT button to open the cassette holder.
- Insert a cassette tape with the exposed side facing upward as shown below.

← Forward direction

- Close the holder gently until it clicks.
- Press the TAPE PLAY button.
  - On model RC-QN3, both sides of the tape play continuously as follows until you stop the cassette deck.
    - One side (side A for example) is played. The FWD (⊲) direction indicator lights up.
    - When the tape reaches its end, the other side (side B) is automatically played back. The REV (▷) direction indicator lights up.
    - At the tape end, the first side (side A) is played back again, and so on.
  - For RC-QN2, the tape is played and then stops when it reaches the end.
  - The TAPE indicator turns to the right during Playback and Recording, even in Pause mode.

To change the playback direction, before or during playback, press the DIRECTION button on the Unit. (RC-QN3 only) The tape playback direction changes.

**To pause**, press the PAUSE button on the Unit. (RC-QN2 only) **To cancel pause**, press the PAUSE button again. Play continues from the point where it was paused. (RC-QN2 only)

To stop playing, press the m/≜ STOP/EJECT button.

To remove the tape, stop the tape, and press the **■**/**≜** STOP/ EJECT button again.

### To Fast-Forward and Rewind a Tape

Press the ◄◄ (fast-forward) button on the Unit to fast-forward the tape.

Press the ▶► (rewind) button on the Unit to re-

- wind the tape.
  The Cassette Deck automatically stops when the tape reaches its end. (RC-ON2 only)
- The TAPE indicator does not turn during fast-forwarding or rewinding.

## Using the Cassette Deck (Recording)

## Things To Know Before You Start Recording

- It may be unlawful to record or playback copyrighted material without the consent of the copyright owner.
- The correct recording level is automatically set by the ALC (Automatic Level Control) function, and is not affected by the VOLUME control on the Unit or by the use of sound effects.
- Two small tabs on the back of the cassette tape, one for side A and one for side B, can be removed to prevent accidental erasure or recording.
- To record on a cassette with the tabs removed, you must cover the holes with adhesive tape as shown.

#### Notes:

- Use normal tapes (not metal or CrO2 tapes) for recording.
- At the start and end of cassette tapes, there is leader tape which cannot be recorded onto.

(Display when using the Cassette Deck)

If a recorded tape you make has excessive noise or static, the Unit may have been too close to a TV during the recording. Either turn off the TV or increase the distance between the TV and the Unit.

### Recording from the Radio

- Press the ■/≜ STOP/EJECT button to open the cassette holder.
- Insert a blank or erasable cassette tape with the exposed side facing upward as shown below and wind past the leader tape.

← Forward direction

Close the holder gently until it clicks.

#### Tune in to a radio station.

#### Press the 9 REC button on the Unit.

The PLAY button is pressed at the same time, the "REC" indicator lights up, and the Unit begins recording.

- For RC-QN3, recording is done in the following manner.
  - One side (side A for example) is recorded. The FWD
     (◄) direction indicator lights up.
  - When the tape reaches its end, the other side (side B) is played (not recorded onto). The REV (▷) direction indicator lights up. (You should press the ■/▲ STOP/ EJECT button to stop the tape.)
  - 3. At the tape end, the tape stops.
- On model RC-QN2, the tape is recorded and then stops when it reaches the end.
- The TAPE indicator turns to the right during Playback and Recording, even in Pause mode.

To pause the recording, press the PAUSE button on the Unit. (RC-QN2 only)

To cancel pause, press the PAUSE button again. Recording continues from the point where it was paused. (RC-QN2 only)

To stop recording, press the **m**/♠ STOP/EJECT button.

To remove the tape, stop the tape, and press the ■/▲ STOP/ EJECT button again to open the cassette holder.

#### Recording an AM station (BEAT CUT)

When recording an AM broadcast, beats may be produced which are not heard when listening to the broadcast. If this happens, you can use the BEAT CUT function.

#### Switch the BEAT CUT switch on the back of the Unit from the NORM-1 to 2 or 3.

**Note:** In regular use, the BEAT CUT switch should be set to the NORM-1 position.

#### Recording from the CD

The CD Player can be started with the Cassette Deck for synchronous recording and everything on the CD recorded onto the tape in the order it is on the CD.

## Insert a cassette tape in the Cassette Deck and wind past the leader tape.

On model RC-QN3, be sure that the FWD (<) direction indicator is lit and the tape is wound for forward playback. (Refer to the tape insertion illustration mentioned above.)</li>
 If the REV (▷) direction indicator is lit, press the DIRECTION button to correct it.

#### Load a CD.

Press the CD >/II button.

#### Press the button to stop the CD.

• You can check the number of tracks and the total playback time of the CD on the display. (See page 6.)

### Select the Repeat mode of the CD if desired.

To select the Repeat mode ( or ALL), press the RE-PEAT button on the Remote Control.

## Choose whether to have approx. four seconds of blank tape between tracks.

If you want the blank section, skip this step.

If you do not want the blank section, perform the following operation on the CD Player.

Press the CD ►/II button twice.

#### 7 Press the • REC button on the Unit.

The PLAY button is pressed at the same time, the "REC" indicator lights up, and the synchronous recording begins.

- On model RC-QN3, recording happens as follows. (Note: you will need to press the ■/♠ STOP/EJECT button when recording has finished for the first side of the tape.
- One side (side A for example) is recorded → When the tape reaches its end, the other side (side B) is played back (not recorded). → At the end of the tape (side B), the tape stops.
- On model RC-QN2, the tape is recorded and then stops when it reaches the end.
- To continue recording to the other side of the tape, perform the following steps.
  - 1. Reverse the cassette tape and wind past the leader tape.
  - 2. Press the CD ▶/II button and then press the REC button.

Then, the synchronous recording begins from the beginning of the last track that was stopped at the end of the first side of the tape.

To stop recording, press the ■/▲ STOP/EJECT button.

To remove the tape, stop the tape, and press the ■/▲ STOP/
EJECT button again to open the cassette holder.

#### Notes:

- If the CD reaches its end before the tape, the tape will continue to run until stopped. Press ■/ STOP/EJECT button to stop the tape.
- During synchronous recording, the CD ►/II, | ◄◄, and ►►|
  buttons for the CD Player do not function.
- If you press the REC button during playback the CD, recording will start from the beginning of the track being played.

## To Continue Recording to the Other Side of the Tape

#### On model RC-QN3:

After pressing the **I**/**A** STOP/EJECT button to stop synchronous recording when recording has finished for the first side of the tape, carry out the following to continue recording to the other side of the tape.

- 1. Reverse the cassette tape and wind past the leader tape.
- Be sure that the FWD (<) direction indicator is lit, and then press the ● REC button again.

The synchronous recording will begin from the last track that was stopped at the end of the first side of the tape.

#### On model RC-QN2:

When the tape reached its end and stopped, carry out the following to continue recording to the other side of the tape.

- 1. Reverse the cassette tape and wind past the leader tape.
- 2. Press the REC button again.

The synchronous recording will begin from the last track that was stopped at the end of the first side of the tape.

## **Using the Timers**

The timers let you control listening functions automatically.

### Setting the Clock

## You can set the clock when the Unit is turned on. Notes:

- The clock must be correctly set for the timers to work.
- When setting the timers, you have two minutes in which to complete the procedure. Otherwise, the setting is cleared and must be repeated from the beginning.

(For 2 seconds) (Display "CLOCK") (Select the time)

- Press the CLOCK/TIMER button on the Unit and hold for more than two seconds.
- Turn the JOG dial until the "CLOCK" indicator blinks on the display.

The display changes as follows:

(For 2 seconds) ("CLOCK"indicator) (Select the time)

#### Press the CLOCK/TIMER button.

The "CLOCK" indicator stays lit. The Unit's current set time blinks on the display.

#### Turn the JOG dial to set the time.

Turn the JOG dial to the right or left to increase or decrease the time. Turning it rapidly advances or decreases the time faster.

#### Press the CLOCK/TIMER button.

Then wait for 5 seconds or press the CLOCK/TIMER button once again to return to the original display. The selected time is set and the seconds start counting from 0.

CAUTION: If there is a power failure, the clock loses its setting after approx. five minutes. The display shows "00:00" and the "CLOCK" indicator blinks, and the clock must be reset.

#### **Setting the Dally Timer**

Once you have set the Daily Timer. The timer will be activated at the same time every day. You can cancel or re-activate the Daily Timer. Note that the Timer indicator ( ) on the display shows that the Daily Timer you have set is in effect.

**Note:** Perform each setting within 30 seconds. Otherwise, setting is cleared and must be repeated from the beginning.

#### Press the U/| button to turn on the Unit.

#### Setting the ON time (Example: 7:00)

- Press the CLOCK/TIMER button on the Unit and hold for more than 2 seconds.
- Turn the JOG dial until the "DON" indicator blinks on the display.
- Press the CLOCK/TIMER button.The current ON time blinks on the display.
- Turn the JOG dial to set the time you want the Unit to come on.
   Turn the JOG dial to the right or left to advance or decrease the time.

Turning it rapidly advances or decreases the time faster.

#### Setting the OFF time (Example: 10:15)

- Press the CLOCK/TIMER button on the Unit.
   The "O" indicator lights up and the current OFF time blinks on the display.
- 2. Turn the JOG dial to set the time you want the Unit to be turned off.

#### A Setting the volume level

- Press the CLOCK/TIMER button on the Unit.
   The Timer indicator is lit and the current volume setting blinks on the display.
- Turn the JOG dial to the right or left to increase or decrease the volume level.

Volume setting range: 0 - 25 or -

### Press the CLOCK/TIMER button on the Unit.

The timer setting is completed and the display returns to the display before you set the timer. The Timer indicator stays lit.

## Before turning off the Unit, prepare the music source.

Tuner: Tune in to the desired station.

CD: Load a CD.

Tape: Load a prerecorded cassette tape.

#### Press the U/ button to turn off the Unit.

To confirm the timer settings (ON/OFF time and volume level), turn on the power, press the CLOCK/TIMER button for more than 2 seconds, and press the CLOCK/TIMER button repeatedly.

To change the timer setting, repeat the setting procedure from the beginning.

CAUTION: If the Unit is unplugged, or a power failure occurs, the timer setting will be lost after approx. five minutes. You will need to reset the clock first, then the timer.

### Cancelling the Daily Timor

To cancel the Daily Timer, turn off the Timer indicator as follows:

- Press the CLOCK/TIMER button on the Unit for more than 2 seconds.
- Turn the JOG dial until the "∅₀=" indicator blinks on the display.
- Press the CLOCK/TIMER button .

The Timer indicator and the CLOCK indicator go out.

To re-activate the cancelled timer, repeat the same steps as for setting the Daily Timer.

## Use the Sleep Timer to turn the Unit off after a certain number of minutes when it is playing. By setting the Sleep Timer, you can fall

minutes when it is playing. By setting the Sleep Timer, you can fall asleep to music and know that your Unit will turn off by itself rather than play all night.

- You can only set the Sleep Timer when the Unit is on and a source is playing.
- Play back a CD, tune in to a desired station, or play back a tape.
- Press the SLEEP button on the Remote Control.

The "SLEEP" indicator lights up.

#### Set the length of time you want the source to play before shutting off.

- Each time you press the SLEEP button, it changes the number of minutes shown on the display in this sequence:
- $\rightarrow$  30  $\rightarrow$  60  $\rightarrow$  90  $\rightarrow$  120  $\rightarrow$  Cancelled  $\rightarrow$  (back to the beginning)

The display will stop blinking after 5 seconds and return to the display before you set the Sleep Timer.

The Unit is now set to turn off after the number of minutes you have set

#### To Confirm the Sleep Time

When the SLEEP button is pressed, the remaining sleep time is displayed. After 5 seconds the original display returns.

#### To Cancel the SLEEP Timer Setting

Press the SLEEP button until the "SLEEP" indicator goes off on the display.

Turning off the Unit also cancels the SLEEP Timer.

If you are setting the Daily Timer, the Unit will be turned on at the set time to wake you up.

## **Using the Microphones**

#### - Microphone Mixing

Using a microphone (not supplied), you can mix the microphone sound with a source sound.

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Start a source; CD, tape, or tuner.
- Adjust the volume level, as you sing into the microphone.

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Adjust the volume level, as you sing into the microphone.

Note: If "howling" occurs, keep the microphone away from the

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Adjust the volume level, as you sing into the microphone.
- To record, follow the steps in "Recording from the Radio" or "Recording from the CD" according to the source you want to mix. (See pages 8 and 9.)

Note: If "howling" occurs, keep the microphone away from the Unit.

- Connect a microphone by plugging it into the MIC jack on the back of the Unit.
- Adjust the volume level, as you sing into the microphone.

To record, refer to "Recording from Radio" except for tuning in to a radio station. (See page 8.)

Note: If "howling" occurs, keep the microphone away from the

### **Care And Maintenance**

Handle your CDs carefully, and they will last a long time.

#### **Compact Discs**

 Only CDs bearing this mark can be used with this Unit.

 Continued use of irregularly shaped CDs (heart-shape, octagonal, etc.) can damage the Unit

- Remove the CD from its case by holding it at the edges while pressing the case's center hole lightly.
- Do not touch the shiny surface of the CD, or bend the CD.

- Put the CD back in its case after use to prevent warping.
- Be careful not to scratch the surface of the CD when placing it back in the case.
- Avoid exposure to direct sunlight, temperature extremes, and moisture.

A dirty CD may not play correctly. If a CD is dirty, wipe it with a soft cloth in a straight line from center to edge.

CAUTION: Do not use any solvent (for example, conventional record cleaner, spray thinner, benzine, etc.) to clean a CD.

#### **Moisture Condensation**

Moisture may condense on the lens inside the Unit in the following cases:

- · After turning on heating in the room.
- · In a damp room.
- If the Unit is brought directly from a cold to a warm place.

Should this occur, the Unit may malfunction. If this happens, leave it turned on for a few hours until the moisture evaporates, unplug the AC power cord, and then plug it in again.

#### **General Notes**

To ensure top performance, keep your CDs and the mechanism clean.

- Store CDs in their cases, and keep them in cabinets or on shelves.
- · Keep the CD holder closed when not in use.

### **Cassette Tapes**

- If a tape is loose, it may get stretched, cut, or caught in the cassette. Take up the slack by inserting a pencil in one of the reels and rotating in the right direction.
- Do not touch the tape surface.

- Do not store the tape:
  - In dusty places
  - In direct sunlight or heat
  - In damp areas
  - On a TV or speaker
  - Near a magnet

#### **Cassette Deck**

- If the heads, capstan, or pinch-roller in the Cassette Deck become dirty, you may experience:
  - Loss of sound quality
  - Discontinuous sound
  - Fading
  - Incomplete erasure
  - Difficulty recording
- Clean the heads, capstans, and pinch-rollers using a cotton swab moistened with alcohol.

- If the heads become magnetized, the Unit will produce noise or lose high frequency notes.
- To demagnetize the heads, turn off the Unit, and use a head demagnetizer (available at electronics and record shops).

## **Troubleshooting**

- If you have a problem with your System, check this list for a possible solution before calling for service.
- If you cannot solve the problem from the hints given here, or the System has been physically damaged, call a qualified person, such as your
  dealer, for service.

| Symptom                               | Possible Cause                                                                                                                                    | Action                                                                                                                                      |  |

### -MEMO-

### **Removalot Main Parts**

### Front cabinet assembly

- Detach the cover by pressing down the pawls at either side of the battery cover on the back of the unit.
- 2. Remove the 8 screws (1) securing the front cabinet assembly from the back of the unit.
- To remove the volume control knob on the front panel, thread a thin piece of string between the volume control knob and the cabinet, and pull out the knob.
- Open the cassette door, pull out the front cabinet assembly slightly, and disconnect the speaker connector CN309 from the main board assembly.
- Lower the handle and pull it out.
   (To replace the handle, remove the 2 screws (1) attaching the handle.)

1. Remove the 4 screws (3) attaching the speaker. (Detach the other speaker in the same way.)

### Cassette door assembly

 Detach the front cover, then remove the shaft on the spring side and pull it out. (When assembling, install it from the damper side. When finished assembling, make sure that the spring is at the specified position.)

#### RC-QN1/QN2/QN3

### CD player assembly

- 1. Disconnect the CN306 connector on the power board assembly. (Disconnecting the CN307 connector on the power board makes the procedure easier.)
- 2. Pull out the CD unit section from the cabinet, open the CD door and remov
- e the 2 screws (5) securing the CD case.
- 3. Slide the CD door and CD case section back and release the two hooks (C).
- 4. Disconnect the CD machanism's pickup card wire and 6-pin connector from the CN601 and CN602 on the main board assembly.
- 5. Remove the 2 screws (6) securing the main board assembly and release the two connections (d) to the holder at 2 positions.
- 6. Release the switch board assembly pawl (e) from the rear of the CD case.
- 7. For wire processing, refer to Fig. 14. • • •

#### Power unit

- 1. Remove the 2 screws (7) securing the power transformer.
- 2. Disconnect the CN307 connector from the power board assembly.
- 3. Remove the 2 screws (8) securing the power board assembly.

#### Antenna

- 1. Remove the rear panel screw (2) securing the antenna.
- 2. Pull out the antenna. (When installing the antenna, it should be combined with the spring as shown in the figure.)

### Battery contact board assembly

- 1. Disconnect the CN307 connector on the power board assembly.
- 2. Lower the battery contact fixing pawl (f) to pull out the board. s shown in the figure.)

#### CD Mechanism section

Pickup unit

- 1. Remove fore screws retaing the pick cover
- 2. While pressing the stoper in the arrow direction, pullout the shaft.
- 3. remobe the pickup unit.

Shaft stopper While pressing the stopper in the arrow direction, pull out the shaft.

Mounting of damer

#### RC-QN1/QN2/QN3

Detaching the combined cassette mechanism /CD unit/main board assembly

- 1. Disconnect CN306 from the power board assembly. Disconnecting CN307 makes the procedure easier.
- 2. Remove the processed wires from the cabinet.
- 3. Remove the fixing screw (4) at the lower left of the cassette mechanism.
- 4. Pull out the unit.

#### **Detaching each assembly**

Operation switch board assembly

- 1. Disconnect CN701, CN702, CN703 and CN704 on the operation switch board assembly.
- Release the two pawl s (g) under the switch board assembly to detach the switch board assembly.
   (To detach the operation switch board assembly together with the switch board holder, release the left and right pawl s (b) on the holder.) apeCassette mechanism assem

### Cassette mechanism assembly

- 1. Detach the switch board together with the holder.
- 2. Remove the 3 screws (4) securing the cassette mechanism assembly.
- 3. Disconnect the CN301 and CN308 connectors on the main board assembly.
- 4. Pull the cassette mechanism assembly down to detach it. (For cassette mechanism wire processing, refer to Figs. 7 and 8.)

CN704

#### ■ Cassette Mechanism Section (RC-QN1/QN2 Only)

Fig.2-10

#### ■ Capstan motor (Fig.2-10)

- Remove the cassette mechanism assembly. (Refer to the article "Cassette mechanism assembly" appearing on a previous page.)
- 2. Remove one screw (9) retaining the capstan motor assembly from the back of the cassette mechanism assembly.
- 3. Disengage the main belt from the flywheel assembly. Then slide the capstan motor slightly in the direction of the arrow a while lifting it upwards to remove together with the main belt.

#### **■ Eject slide lever** (Fig.2-11)

 Place the cassette mechanism back side frontward and disengage the stopper arm (b) of the Eject slide lever by pressing it inwards through the opening of the chassis with a small screwdriver as shown in Fig.2-11.

#### ■ Leaf switch (Fig.2-12)

1. Press the leaf switch in the direction of the arrow © and then remove it in the direction of the arrow @ referring to Fig.2-12.

Fig.2-11

Fig.2-12

Fig.2-13

Fig.2-14

Fig.2-15

### ■ Pinch roller assembly (Fig.2-13 to 2-14)

- 1. Pull out the stopper protruding from the base assembly in the direction of the arrow (e) to remove it from the pinch roller assembly.
- 2. Then, pull out the pinch roller assembly in the direction of the arrow(f).

### ■ Rec /PB head and erase head (Fig.2-13 to 2-15)

- 1. Remove two screws (0), (1) retaining the Rec/PB head.
- 2. Pull out the stopper of the erase head in the direction of the arrow (g).
- 3. Pull out the erase head in the direction of the arrow (h).

### ■ Flywheel assembly (Fig.2-16)

- 1. Remove the split washer retaining the flywheel assembly in the direction of the arrow(i).
- 2. Pull the flywheel assembly out of the back side of the cassette mechanism assembly in the direction of the arrow(j).

Fig.2-16

#### ■Cassette mechanism section for RC-Q3

■ Removal of pinch roller (See Fig.2-22)
Remove washers © and © retaining the pinch roller.

### ■ Removal of disc unit (See Fig. 2-17)

**Caution:** Don't overload the gear. And be sure to start the above operation after installing the flywheel.

- Remove one screw @ retaining the motor switch (FF/ RFW)
- 2. Remove one screw (1) retaining the disc base bracket and play motor switch.
- Remove two springs hanging at the recording lever lock bracket.
- 4. Setting up the disc base unit assembly in the direction of arrow, remove the pawl (D).

# ■ Removal of fly-wheel (See Fig. 2-29) Remove the washer (E) retaining the fly-wheel together with the slit washer.

■ Removal of cam gear (See Fig. 2–18)
Remove the slit washer (F) retaining the cam gear.

### ■ Removal of button base assembly (See Fig. 2-19)

- 1. Turn the mechanism upside down and remove two screwes @ retaining the button base assembly.
- 2. Remove one screw (3) retaining the pause button lever.
- 3. Remove the button lever stud from the pause button level while pushing the pause button lever.
- Push the reverse button lever and remove one screw (a)
  retaining the reverse button lever. Then, remove the button reverse stud.
- Remove seven springs in the rear of the mechanism (Refer to G, H, K, L, M, N, P = cassette mechanism section)

Fig. 2-17

**Fig.** 2–19

#### RC-QN1/QN2/QN3

## ■ Motor assembly and removal of motor bracket (See Fig. 2-20, 2-21)

- 1. Remove three screws ① retaining the motor assembly.
- 2. Remove two screws ② retaining the motor bracket.

### ■ Remove of head assembly (See Fig. 2-22, 2-23)

- Remove the extension board of head wire. Then push both sides of wire clamp along the direction of the arrow to remove the head assembly.
- 2. Unsolder the head wire.
- 3. Remove two screws (3) retaining the head assembly.
- 4. Remove two screws 4 for the head azimuth.
- As shown in Fig. 2-22, remove the gear (B) shaft as pulling it along the "Y" direction and raise the head assembly with your hand.
- 6. Turn the erasion head arm assembly (A) along the arrow direction and remove it referring to Fig. 2–22.

#### ■ Head replacement (See Fig. 2-23)

- 1. Remove the head gear (R).
- 2. Remove the pawls (S) on both sides of the holder.

#### ■ Head assembly (See Fig. 2-25)

- 1. Set the slide plate for head rotation on its stand.
- For setting two gears for head rotation, combine (a) and
   parts as shown in the figure into slide plate for head rotation.
- 3. Following these main points in Fig. 2–26, proceed with the head gear and the gear for head rotation.
- \* After installation, operate the direction button and confirm the reversion of 180° and the head to be vertically positioned.

Fig. 2-24

Gear for head rotation Fig. 2-25

## **Main Adjustment**

#### Test Instruments required for adjustment

1. Low frequency oscillator

(Frequency range: 50Hz to 20kHz)

( Output : 0 dBs across 600  $\Omega$  terminating resistor )

2. Attenuator(Impedance: 600  $\Omega$ )

3. Test Tapes

VTT712 ······ For tape speed,wow & flutter check VTT722、724 ····· For playback output level check VTT736 ···· For playback frequency response check VTT702 ···· For head azimuth adjustment

4. Blank tape TYPE1:AC - 225

5. Electronic voltmeter,

6. Distortion meter

7. Frequency counter

8. Wow and flutter meter

 9. Torque gauge ( Cassette type) .......CTG - N

 10. Test disc........CTS1000

 11. Jitter meter .......NJM631

 12.TE Offset .......LTM9055

#### Measuring conditions (Amplifier section)

Supply voltage  $\cdots$  AC120V (50Hz) DC9V(UM - 1  $\times$  6)

Reference output level Speaker

:0 dBs (0.775V) / 3  $\Omega$ 

Headphone

: - 10 dBs (0.245V)/ 32  $\Omega$ 

Reference input level

: — 20dBs supplied to test point CN1

Standard test frequency··········· 1kHz

Output measuring point ······· Speaker terminal

: Dummy load 3  $\Omega$ 

Standard position of switches

Function switch ······ TAPE

Beat cut switch ····· NORMAL

Standard position of controls

#### Test remarks

- Negative side of the input and output terminals of the testing set, shall be isolated from each other. The negative side should not be commonly connected when a 2channel electronic voltmeter is connected.
- A dummy load shall be connected to the output terminal and the lead wires of dummy load shall be as thick as possible.

#### Measuring condition (Tuner section)

#### Remarks for alignment

- 1. Connect 30 pF capacitor and 33 k  $\Omega$  resistor to the output terminal of the IF sweeper in series while 0,082  $\mu$  F capacitor and 100k  $\Omega$  resistor to the input terminal in series.
- 2.Set the output level of the IF sweeper as low as adjustable.
- 3.IF alignment is not necessory for both AM and FM MPX alignment is not necessory either. All IFTs and MPX coil are non-adjusting type.

## **■** Cassette Amplifier Section
